DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 5-7, 9, 11-15 are rejected under 35 U.S.C. 103(a) as being obvious over Simon-4,425,908 in view of Liprie-5,556,389.

As to claims 5-7, 9, 11-15, Simon-'908 (Fig. 1-12) shows guidewire 80, self-expanding nitinol filter 10 associated with guidewire 80, sheath 58 substantially as recited in the claims. Simon-'908 does not explicitly using an expandable balloon to treat a stenosis site. However, it is well known in the art to treat an occlusion/stenosis/restriction by expanding a balloon. For example, Liprie-'839 (Fig. 1-5, for example) shows guidewire 16 for guiding balloon 18 to treat a stenosis 30. In view of Liprie-'839, it would have been obvious to one of ordinary skill in the art at the time of the invention to use a balloon catheter to follow a guide wire 80 of Simon-'908 to treat a stenosis as recited in the claims.
